PREFACE

This booklet is a compilation of information about the descendants of William Jasper Renneker (1854-1924) and Mary Elizabeth Wenneker (1860-1952). It was made possible by the cooperation of those whose records appear in it, and to those who helped me I would like to express my thanks. The emphasis is on contemporaries, not ancestors, but some material on the latter is included.

Although this family is not as large as many others, 86 descendants of W. J. Renneker have been identified, and all but two of these are still living. Because of the constantly increasing size of the family, it has become difficult for us to keep track of each other, and to correctly place other members in their relation to us. It was for this reason, and to foster a feeling of family identity, that these records were assembled.

Every attempt has been made to weed out inaccuracies, but with so many separate facts set forth in one place, there are bound to be a few mistakes that were not caught. I would appreciate having them brought to my attention. I would also appreciate hearing from any member of the family at any time about births, deaths, marriages, graduations, and changes of address. Any requests for family information will be answered promptly.
